

NEPTUS

HATO's submersible lamp is expertly designed for sea-cage environments, enhancing aquaculture with efficient, high-power lighting. It promotes fish growth, streamlines operations, and conserves energy. Featuring an ultra-durable, easy-to-install design, it's the smart, sustainable choice for modern fish farming.

Operating voltage:	220 – 240 VAC
Light source:	LED
Dimmer type:	Dali
Flicker-free:	Yes
Dim range:	1 - 100%
LED's Expected Average Lifetime:	70,000h
Operating temperature (Under water):	-5 °C <Ta< +25°C
Storage temperature:	-20°C <Ta< +50°C
Net weight	10kg / 22 lbs
Base material:	POM and SS316
IK	Fixture 10, glass 8
IP	68 (at 20m)
Warranty:	1 Years*
Application:	Aquaculture
